

## FIEND DODGES THE OFFICERS

New York Police and Detectives Unable to Land Author of Recent Crimes.

EAST SIDE GIRL ATTACKED  
PEOPLE WORKED UP TO VIGILANTE PITCH.

New York, Aug. 3.—The remarkable series of crimes in this city, in which women and children are the objects of attack, shows no sign of abating. During yesterday two such attacks were reported to the police, and today one additional case has been brought to public notice, that of a young East Side girl, who was attacked by a miscreant while passing through the hallway of the house that held her home.

**Beyond Reach of Police.**  
Scarcely an arrest of importance has been made, and the police confess themselves as completely baffled. Detectives who have studied the different cases differ as to the probable perpetrators of the different crimes. Some incline to the belief that the assaults are the work of one man, one who has the mad animal instinct of the London and Berlin "ripper." Others combat this theory and point to the widely separated points in which the crimes occurred and the different methods with which final murder was accomplished. No one can explain, however, why there should be such an epidemic of fiendish crimes in this city at this time.

The alarm is widespread, and there has been a marked decrease of the number of women and children upon the streets at night. Every little street incident is magnified, and a mob quickly assembles.

**Vigilante Committees Suggested.**

In several instances men have been attacked by the crowds and, whether rightly or wrongly, have been severely beaten by the people. The temper of the feeling is shown by letters which have been received by the newspapers suggesting vigilante committees and protective associations. Some adverse comment has been caused by the fact that Police Commissioner Bingham has gone away on a vacation at this time, but he has explained that he has done all he could to catch the fiend or fiends, and that he will return to the city in case his presence is required.

The list of victims who have met death in this wave of crime has reached five, three young girls and two women. A score or more have been attacked.

Louis Esposito, a fruit dealer, was arrested today in connection with the murder of Kate Tietzschler. He was accused of having been seen in the cellar where the girl was killed.

**Girl Attacked in Brooklyn.**

New York, Aug. 3.—An attack was made today on Anna Rogers, a young girl, on Fifth avenue, Brooklyn, today by an Italian, who was rescued from the hands of an angered crowd by the police.

**GRIST FROM POCATELLO.**

Council and Contractors in Mix-Up Over Sidewalk Construction.

Pocatello, Aug. 3.—Just at present the city council and the cement sidewalk contractors are in a mix-up regarding the specifications laid down by the city engineer and there is in this much needed improvement.

Most of the city's sportsmen are out in the hills gunning for sage hens, the season having opened on the first.

Work on the erection of the new hospital at the academy of Idaho, will begin at once and be rushed to completion.

The wedding of Mrs. Edna Hale and T. J. Gibson was celebrated last Thursday evening at Willow Leaf ranch, the country place of Mr. and Mrs. Harry Kenton, known far and wide as the "home of hospitality."

On the same evening occurred the christening of the infant child of the Kintons, Mollie Willowleaf, the name being a combination taken from Willow Leaf and Hallowe'en. These were the society events of the week and the fortunate participants will long remember the occasion.

The building of the new railroad Y. M. C. A. is being pushed rapidly and the Carnegie library building will follow suit shortly. These two buildings will add much to the architectural beauty of Pocatello.

T. C. Holz, secretary and manager of the new Idaho Portland Cement and Brick company, has given the Pocatello investors in stock assurance that the cement plant will be located in this city. The company's brick plant is being erected at Idaho Falls.

The Pocatello Pressed Brick & Manufacturing company is pushing matters as fast as possible to the installation of a large plant and a new sand-line brick plant will be put in at Pebble in the near future.

On Aug. 3, 3000 acres of state land will be offered for sale by State Register, M. J. Church in this city. This land is appraised at from \$10 to \$100 per acre and will go with a rush, as it is exceptionally desirable. Property all through the valley is increasing in value by leaps and bounds.

Dr. R. G. Boone, editor of Education, New York City, and one of the most prominent educators of the country, delivered three lectures here this week before the summer school, which is in session at the Academy. The school this year enjoys the largest enrollment and greatest popularity of its existence.

The Southeastern Idaho Press club will meet here on Aug. 18 and 19, and arrangements are being made on an extensive scale for the entertainment of the 100 pencil pushers.

**SAFE FOR A SEASON.**

Montgomery, Ala., Aug. 3.—In the house last night Mr. Henley failed in an effort to call up his prohibition bill. As there are only two days more of the session, it cannot possibly pass.

**COAL MINE HORROR.**

Homburg, Prussia, Aug. 3.—An explosion of fire damp in a mine at Mittelbach resulted in the killing of eighteen men and the wounding of eleven other men.

**HOSTETTER'S**  
CELEBRATED  
STOMACH  
BITTERS

For a bad spell of STOMACH TROUBLE THE BITTERS is especially valuable. It also cures POOR APPETITE, SOUR RISINGS, INDIGESTION, DIARRHOEA, CRAMPS OR MALARIAL FEVER. Try it today.

## PARADE OF THE BRITISH FLEET

Some 200 Ships of War Pass in Review Before King Edward and His Queen.

AN IMPOSING SPECTACLE  
SIX FLAGSHIPS DOTTED THE LINE.

Portsmouth, England, Aug. 3.—The 200 ships of war constituting Great Britain's home fleet paraded before King Edward and Queen Alexandra today on the Solent, and incidentally furnished a magnificent pageant for the opening of the annual Cowes regatta week.

Spread out in seven long lines between the Isle of Wight and the Hampshire shore, this splendid array of vessels, great and small, formed a floating steel city with a population of 35,000 officers and men. Never before have so many British men-of-war been seen together under the control of a single admiral. From the battleship Dreadnought down to the smallest submarine every vessel was decked from stern to stern with flags. The crews were assembled on deck, and as the king and queen on board the royal yacht Victoria and Albert passed down the lines each ship's company gave a rousing cheer.

**Line Eleven Miles Long.**

For eleven miles up and down the king and queen steamed between steel walls.

This gathering of warships forms the recently organized home guard section of the British navy, and the government and the admiralty are so proud of the assemblage that they departed from the usual rule about visitors and threw the entire fleet open to the critical inspection of the public. Dotted through the lines were no less than six flagships, headed by the Dreadnought.

Hosts of pleasure launches and excursionist steamers loaded with thousands of the general public, each with its band of music playing, helped to enliven an unusually attractive scene. The weather, which was gloomy early in the morning, cleared up before the departure of the king from Portsmouth.

**\$50.00 Reward.**  
We will pay the sum of \$50 for the return of the dental sample work taken from the display case at 218 South Main street on Tuesday evening last.

**BATHING AT SALT AIR**

A warm day pleasure. Go.

Ask your grocers for the Vienna Walnut Bread.

**REXBURG NEWS NOTES.**

Rexburg, Ida., Aug. 2.—A number of Rexburg people have gone to the Jamestown exposition. Among those who left recently were Mr. and Mrs. Nathan Ricks, Mr. and Mrs. Eli McIntyre, Mr. and Mrs. W. G. McAllister and daughter Jessie.

O. F. Arsenault is now editor of the Current-Journal. No change has been made in the ownership of the paper. Ezra C. Dalby is still the editor. Mr. Arsenault has purchased the residence of W. W. Beckstead on Main street.

Willie Martin, a son of John Martin of Archer, met with a very painful accident a few days ago. He was picking dynamite out of a giant cap, when it exploded, tearing his hand badly. Dr. Ormsby was summoned and found it necessary to amputate the thumb and two fingers.

Joseph Larson of Salem, who was stricken with appendicitis at a sawmill near Ashton several weeks ago, and who has brought to Rexburg for treatment, is still confined to his bed at the Commercial hotel here. It is expected, however, that he will be able to return home in a short time.

A farewell dance was given Monday evening in honor of James B. Wallis, who left on Wednesday to fill a mission in the southern states. Elder Wallis is the son of James H. Wallis, editor of the Rexburg Standard.

Miss Elizabeth Spon entertained the members of the stake board of the M. I. A. at her home on Thursday evening.

Work is progressing rapidly on the new Third ward meeting house. It will be one of the neatest churches in this part of the country. Bishop Hyrum Ricks of the newly formed ward reports that every one is working with a will for the quick completion of the new meeting house. In the meantime services are held on Bishop Ricks' lawn under a canvas.

City Physician Ormsby reports that the smallpox situation is under control. There are but two families under quarantine, and these cases are quite mild.

Miss Tillie Plamm of Rexburg won second place in the piano contest at the Wandamere musical Chautauqua at Salt Lake on July 28. Eight of the best amateur pianists of Salt Lake entered the contest and the Rexburg girl won second place. Miss Plamm is taking a course in vocal and instrumental music under the best teachers in Salt Lake City.

The crop outlook for this season is excellent. This is true of both dry and irrigated farms. Each year sees an increase in the acreage of dry land crops. Some of the dry farms will produce as high as forty bushels to the acre. There is but little of this land remaining to be taken up. There seems to be an increase in the summer rainfall here, so that the term "arid," as applied to the upper Snake river valley, is becoming a misnomer. There is even a greater tonnage of beets this year than last. Some farmers are making a business of raising beets and raise only sufficient hay and grain for their stock.

Interest has been revived in the Teton Basin railroad. There is no question about it being a paying proposition from the start and it would pay private parties to build the road. The coal question would be settled for the people up here. Coal is now hauled by team fifty and sixty miles from the Teton Basin mines. One vein is several miles long. The capitalist wants a good investment, the proposed Teton Basin railroad would be a paying one. Fremont county alone has more than 50,000 people and the basin population is growing rapidly.

Bishop Liljequist of Hyrum, Utah, is here visiting relatives and friends.

Dr. Jacob Harding of Willard, Utah, was shaking hands with old friends here this week. He was formerly principal of the district school here. Recently he was graduated from the University of Chicago with the degrees of B. S. and M. D.

Mrs. George H. Plamm returned this week from Logan. She was accompanied by her sister, Miss Ella Edwards.

Mrs. Martha Francum of Levan, Utah, is the guest of her daughter, Mrs. Oliver C. Dalby.

Mrs. E. C. Dalby is visiting in Mantli, Utah.

Professor Charles J. Engar and family went to Utah this week to spend the remainder of the summer. Mrs. Engar goes to Richfield, while Professor Engar will remain in Salt Lake to study music. Professor Engar has charge of the musical department of the Ricks academy.

Mrs. M. J. Harrison of Richmond, Utah, was the guest of her niece, Mrs. J. D. Speirs, this week.

## HIP, HIP, HURRAH

Three Cheers and a Tiger.
